

# DP42. Information Retention and Disposal Schedule

## Introduction

The Council's Information Retention and Disposal Schedule contains details of when information and records should be disposed of.

Some information is kept on permanent records (e.g. Committee Report). Other records such as financial, personnel, VAT and commercial have to be kept for a period of time to comply with the law.

Most other information need only be kept for as long as the information is necessary and is being used for business or audit purposes.

This is required to comply with the General Data Protection Regulation (GDPR) Principle of Storage Limitation under Article 5(1)(e), namely that:

*1. Personal data shall be:*

*(e) kept in a form which permits identification of data subjects **for no longer than is necessary** for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes in accordance with Article 89(1) subject to implementation of the appropriate technical and organisational measures required by this Regulation in order to safeguard the rights and freedoms of the data subject*

The Adur & Worthing Councils will also follow the Information Commissioner's guidance on storage limitation.

Comments or enquiries should be directed at the Adur & Worthing Councils' Data Protection Officer - [data.protection@adur-worthing.gov.uk](mailto:data.protection@adur-worthing.gov.uk).
